4 December 2009

### **Cancellation of AIM Listing**

The Company has been advised by Alternative Investment Market (“AIM”) that its AIM listing was cancelled on 16 November 2009.

AIM enforced the cancellation under AIM rule 41 which states a company can only remain suspended on AIM for a period of six months. Due to the time required to work through the Deed of Company Arrangement and completing the audit of financial statements it was not possible for the Company to relist within the 6 months period. The Company requested AIM to give an extension to this period to complete the requirements for relisting however this extension was refused.

The Company is unlikely to seek relisting on the AIM in the near future due to the high costs relative to the very small amount of trading activity. The Company has no major shareholders on the AIM and less than 9% of all shareholders.

Shareholders registered on the AIM will be assisted to transfer their holdings to the Australian Stock Exchange (ASX). The Company will seek relisting on the ASX as soon as the audit and other listing requirements are completed early in the New Year.
